

L10 - GREEN

Illuminated box with milled front

SPRINGMAR
SIGNFACTORY

Possible to make single or double-sided, also in different shapes and can be installed either indoors or outdoors.

Case: made of metal (**recycled aluminium**) or, if required, any other **GREEN** material (wood, plastic). If needed, powder-painted with the tone required by the client. The logo has been cut into the case and **GreenCast opal** is attached to the back of it protruding through the front, either without or with foil. The bottom is also made of powderpainted metal(**recycled aluminium**), to which **energy efficient LED-modules** are attached.

Fastening: either rails, L profile, distance rods or background plate depending on the material, size, place of installation and client's requirement.

Height: 100mm – 1350mm

Length: 100mm –

Depth: 60mm – 150mm
